

Mobile Transmissions, Secured by Attachmate and Pragma Systems

You can rely on the secure data transmissions made possible by the unbeatable combination of Attachmate's cutting-edge Reflection® for Secure IT server and Pragma Systems' PocketVT handheld client.

Attachmate® Reflection for Secure IT, designed to protect data in motion, offers Secure Shell servers for Windows® and UNIX. Pragma Systems' PocketVT is a user-friendly SSH client for wireless handheld devices that lets you—and your remote employees—securely connect to SSH servers. Working hand in glove, Attachmate and Pragma Systems offer encrypted and robust remote connectivity for a broad variety of handheld devices and host systems.

Together, Pragma and Attachmate deliver end-to-end encryption for mobile enterprises that:

- Secures interactive terminal sessions to UNIX and Windows servers from mobile devices using Pragma mobile SSH client
- Secures the remote administration of critical servers from a client's mobile device in the field
- Replaces nonsecure FTP and Telnet approaches, protecting passwords and sensitive data with secure SSH solutions
- Offers support for multiple-authentication methods, including certificates, keyboard-interactive, and password authentication
- Builds encrypted tunnels for non-secure applications
- Supports any mobile device that runs on any Windows CE-based operating system, and any processor that runs Windows CE or Windows Mobile OS
- Supports a wide variety of Windows, UNIX, and Linux server platforms
- Facilitates compliance with regulatory standards such as PCI, HIPAA, and Sarbanes-Oxley
- Offers an unparalleled ability to respond to specific customer needs and requirements, customizing secure mobile connectivity

The bottom line? A secured computing partnership with a joint Attachmate and Pragma System solution offers organizations unmatched:

- Expertise in secured, remote computing
- Ready scalability, extensibility, flexibility, and agility
- Cost-effectiveness
- Customization capabilities
- Customer service
- Quality solutions

TECHNICAL SPECIFICATIONS

Reflection for Secure IT Windows and UNIX Servers and Pragma PocketVT

- Provides SSH2 protocol support
- Supports advanced encryptions, including AES and 3DES
- PocketVT supports Windows Mobile 5.0/Windows CE 5.0/4.2 and PocketPC 2003/2002/2000 platforms
