

## **Pragma Systems Achieves IBM Advanced Business Partner Status**

*Pragma Systems announces designation as an IBM Advanced Business Partner providing software solutions for customers using IBM technologies.*

AUSTIN, Texas {September 15, 2009} Pragma Systems, a leading provider of enterprise-class remote access and security software for Windows and Windows Mobile, is now an IBM Advanced Business Partner. IBM awarded Pragma Systems an advanced level membership in the manufacturing industry network.

The Advanced Business Partner certification is given to companies that have demonstrated the necessary skills, sales expertise and successful deployments on IBM business technology. With this recognition, Pragma is entitled to many of IBM's marketing, sales, and product development benefits through the IBM PartnerWorld program. This recognition further allows Pragma Systems to provide IBM users with innovative and effective secure and remote connectivity for their enterprises. Marshfield Clinic, one of the largest private medical practices in the United States, is utilizing Pragma Systems' Fortress SSH Server with IBM AS400 and Lotus Notes to build its secure access solutions to production servers.

"Pragma is very pleased to achieve IBM Advanced Business Partner status as many of our customers run their critical business applications on IBM hardware and software platforms," said Quamrul Mina, CEO of Pragma Systems. "IBM is considered a gold standard in the world of IT solutions and Pragma is delighted to be able to work more closely with IBM as part of this relationship to ease deployment for our mutual customers".

Pragma Systems' Fortress SSH Server, Pragma Telnet Server and Pragma Client Suite and Pragma PocketVT products allow end-to-end secure remote access and management to computers and devices across an enterprise environment. Customers have a reliable way to utilize secure system administration, application delivery and secure encrypted file transfer throughout computing environments with Pragma's product suite spanning servers, desktops and mobile platforms. Pragma's software runs fully-optimized on IBM Servers and with IBM Software platforms like DB2, Lotus Notes and Websphere.

### **About Pragma Systems, Inc.**

Pragma Systems Inc. is a leading provider of enterprise class remote access and security software for Microsoft Windows & Windows Mobile platforms and is a Microsoft Gold Certified Partner. Pragma is an industry leader in Secure Shell and Telnet technology and offers the most popular SSH and Telnet servers for Windows and industrial grade SSH clients for desktops and mobile devices. The company's

end-to-end solutions of servers and clients on the desktop and mobile devices provide highly secure access to corporate supply chain, CRM, distribution and warehouse applications over wireless, Bluetooth, LAN, WAN and mobile networks. Pragma's software is deployed in the majority of Fortune 500 companies in the USA and over 2200 companies worldwide with millions of licensed nodes in over 65 countries. Pragma has software business partner relationship with IBM, Microsoft, Intel, HP and Motorola.
