Pragma Systems Joins the Itanium Solutions Alliance

AUSTIN, Texas {July 10, 2009} Pragma Systems, a leading provider of enterprise-class remote access and security software for Windows Server and Windows Mobile, announced it has joined the Itanium Solutions Alliance. Pragma joins a global community of hardware, operating system and application vendors dedicated to accelerating the adoption and ongoing development of Itanium®-based solutions. The Alliance works to extend the value of mission-critical computing solutions for the Itanium architecture and the Itanium ecosystem as a whole with a focus on mission-critical data, data center modernization, and computationally intensive applications.

"Pragma Systems is pleased to join with a number of other leading hardware and software companies to offer our solutions across the Itanium line of servers," stated Andrew Tull, vice president of sales and marketing at Pragma Systems. "The Itanium line represents best-in-breed technology solutions for a number of our largest enterprise customers and we are pleased to offer our remote and secure connectivity solutions as part of their infrastructure."

"Expanding the diverse Alliance membership to include Pragma Systems strengthens our global community of companies working to modernize today's data centers with Itanium-based solutions," said Joan Jacobs, president and executive director of the Itanium Solutions Alliance. "We enthusiastically welcome Pragma Systems to the Alliance community."

Pragma Fortress SSH Server and Pragma Telnet Server give customers familiar, quick and reliable ways to deliver applications enterprise-wide from Windows Servers. Pragma's managed file transfers and systems management abilities provide a highly reliable end-to-end solution platform using Pragma software and Windows Servers. Pragma fully supports the Itanium architecture and all its products are available in native Itanium 64-bit binary form.

Pragma Fortress SSH is an enterprise grade SSH and SFTP server for the Windows Server operating system and both 64-bit and 32-bit versions are Certified for Windows Server 2008. Pragma Fortress SSH Server for Windows uses patent-pending technology to deliver the full power of advanced shells like Windows PowerShell. Pragma Telnet Server provides application delivery and remote access using Telnet protocol that is widely deployed in the supply chain, retail and warehouse-management industry. Pragma SSH ClientSuite and PocketVT provide the client access software for desktops and Windows Mobile devices. Leveraging Pragma's Itanium platform support, customers can build scalable solutions and attain high level server class performance using Windows Servers.

About Pragma Systems, Inc.
Pragma Systems Inc. is a leading provider of enterprise class remote access and security software for Microsoft Windows & Windows Mobile platforms and is a Microsoft Gold Certified Partner. Pragma is an industry leader in Secure Shell and Telnet technology and offers the most popular SSH and Telnet servers for Windows and industrial grade SSH clients for desktops (Fortress ClientSuite) and handhelds (Pragma PocketVT). The company's end-to-end solutions of servers and clients on the desktop and mobile devices provide highly secure access to corporate supply chain, CRM, distribution and warehouse applications over wireless, Bluetooth, LAN, WAN and mobile networks. Pragma's software is deployed in the majority of Fortune 500 companies in the USA and over 2200 companies

worldwide with millions of licensed nodes in over 65 countries. For more information contact Pragma Systems, Inc., 512-219-7270; email: pragma@pragmasys.com; visit our website at www.pragmasys.com.

About the Itanium Solutions Alliance
The Itanium® Solutions Alliance is a global community of hardware, operating system and application vendors dedicated to accelerating the adoption and ongoing development of Itanium®-based solutions. Formed in September 2005, the Alliance is comprised of some of the most influential companies in the computing industry with a shared, strategic commitment to delivering mission critical computing solutions based on the Intel® Itanium® architecture. http://www.itaniumsolutions.org
