

Pragma Systems, Inc. Now on GSA Schedule with Patriot Technologies

Pragma Systems adds Patriot Technologies as a new government reseller for Pragma's Security Technologies

Austin, Texas {December 2, 2010} – [Pragma Systems](#), a leading provider of enterprise-class remote access and security software for servers and mobile devices, announces a new reseller partnership with [Patriot Technologies](#), which will now offer Pragma's [SSH/Telnet](#) server and [clients](#) as part of Patriot's GSA schedule GS-35F-4363D (US General Services Administration) for government and public sector customers.

Patriot Technologies is a chosen reseller for Pragma based on Patriot's longstanding and deep relationships with a number of Pragma's key existing and future potential customers in the Federal government, particularly the Department of Defense. Pragma is currently finalizing work on the necessary government certifications that provide for the approved product purchases of the Pragma technology.

The GSA provides centralized procurement for the federal government, offering products, services, and facilities that federal agencies need to serve the public. GSA offers businesses the opportunity to sell over \$500 billion dollars of products and services to federal agencies.

"Pragma Systems is pleased to be able to partner with a company of Patriot Technologies caliber, with a long and established relationship with a number of our key customers representing the Federal Government and Public Sector space," said Andrew Tull, Pragma Systems' vice president of sales and marketing. "One of our top priorities for 2011 will be to extend our industry leading security server and client solutions across a number of key government customers, and Patriot represents an important component of our go to market plans."

"Patriot Technologies is pleased to be able to offer Pragma System's Windows based SSH and Telnet client and server solutions through our GSA contract to U.S. government agencies," said Jorge Diaz, COO, Patriot Technologies. "Patriot's addition of Pragma's security products underscores the urgent need for solutions that provide robust secure file transfer and copy solutions while ensuring the highest level of regulatory compliance."

Pragma Fortress SSH Server for Windows includes SSH/SFTP/SCP, allowing secure system administration, application delivery and secure encrypted file transfer throughout IT environments. Pragma Telnet Server provides application delivery and remote access using Telnet. Pragma SSH ClientSuite and PocketVT provide the client access software for desktops and Windows Mobile devices

About Patriot Technologies Patriot Technologies, Inc. is the trusted, go-to source for comprehensive IT security, and appliance and logistics solutions.
